

”

During the audit Comarch displayed high level of engagement, professional approach and detailed knowledge of telecom specific operations.

The cooperation with Comarch was very good which resulted in new contracts.

We would like to recommend the ComArch company for as a performer of a Security Audit of IT systems.

ComArch has successfully completed an audit of the following elements in our company:

1. point of contact between our corporate network and the Internet,
2. network devices.

The audit also included a security analysis of documentation, network structure and selected workplaces.

During the audit ComArch displayed high level of engagement, professional approach and detailed knowledge of telecom specific operations.

The cooperation with ComArch was very good which resulted in new contracts.
